

Infinion - June

Posted by Big Dog - 08 May 2009 13:32

OK, guys. This is to get you all thinking about Infinion at the end of June. Make sure you have racing budget and husband points available to make this race.

Lock up the women, kids and pets, Charlie B. and Big Dog are planning to come up to race with you all. Get everyone's cars preped and ready.

Ken, I don't want to hear no stinking excuses for anyone not coming out to race. Whip up the troops.

Charlie has a motorhome as well and we will set up a 944 compound in the usual area. Who will be around on Friday evening? Let me know so we can plan something for Friday afternoon/evening. Will NASA be doing something Saturday evening? If not, let's plan something.

I am looking forward to seeing everyone again.

Big Dog

Sid, Charlie & I save spaces between the main grandstand into front of the elevator shaft. i.e.- where we normally pit.

There was not enough room in the PRC area.

FYI

well, I hoped to be doing well enough to make it, but I'll have to miss out.

Looks like Dave's the sole picture taker.

Have fun!

Gary, missed you at the track. Get better and get back out here with your son. You missed a terrific race today.

Remember the gold car you and your son rescued for me from the Denny's parking lot, it is now well on it's way to being a spec race car. Thanks again for getting into that mess with me and getting the car to the track for me.

See you soon.

Big Dog
