

## Stickering Up

Posted by Salanis42 - 01 Mar 2010 05:37

---

Getting everything set up on the new car. I understand that I need my side numbers, class designations, 4 NASA stickers, and 2 Toyo logos on the car. Is there anything else I'm forgetting?

Who do I talk to about getting a number assigned to me?

Where do you pick up Toyo Tires logos from? Or do you just get them made at a sign shop?

The designation for the class is "944S" or "944 Spec"?

Are what are the particular placement rules for the Toyo logo and the "944S" designation?

Thanks guys,

Cameron

For me, the car is blue, so black or white show up about as well. I figure black is probably better though. I could use the class stickers too.

I found out a local acquaintance has a vinyl cutting machine and will help me out with numbers and stuff.
