

Misc stock parts needed for '89 944

Posted by mdavirro@yahoo.com - 20 Sep 2010 10:47

My son just purchased a 944 for his first car and it needs some miscellaneous stock parts and I figured they are all parts that you wouldn't need or want on a race car. He needs Black front leather seats, the door lock knobs (push pull on the doors) from a car with the factory alarm (push pulls have an LED light in the tips), black rear carpet and backing, rear hatch pull cover and housing, air conditioning slide knob, etc...etc...

If you have a car that you've built or are building and are looking for a buyer of the miscellaneous stock pieces, call me @ 916-870-2500.

Thanks - Mike
