I haven't been on here in a while, glad to see Norcal 944Spec is still going strong. Hopefully it won't be long until I'm able to get started again. After 6 mos of looking, I've started a new job. Once I get caught up on things, I'll be in the market for another 944 and get back on track.(pun intended)

My new office is in Emeryville, a block away from you Pixar folks. Maybe we can grab lunch sometime.
