I have some used tires but probably not cost effective because of shipping since I'm in So Carolina. But I also have new tires I'll sell for \$125 plus shipping if you or anyone else is interested.

I have 4 RA-1s that have about half tread that I had planned on running in a enduro. They have scuff/light flat spots where I locked them up in the rain.

\$100 or trade for a cookie cutter. Pick up in San Diego.

Jim, there's a guy in San Bernardino with a pair of cookies, you could probably get them for \$100.
