Great weekend until the enduro ate my engine.

Below is the last laps of my battle with Simon during Saturday's race.

Great Weekend!!

Here are my videos from the weekend. These are Front Camera only. The rear is still downloading! I will add it later as some of it is interesting, but my mirror catches most of it anyway.

By the way, apologies to Ian early in the Sunday race. Ron checked up in front of me and I really checked up causing Ian to have to brake hard and slide off track. I didn't know of this until I saw the video. Sorry Ian!

Here are the rear facing videos.

They are a little hard to watch as the rear view is a little disorienting.

However, they are great for seeing where you are better or worse than other drivers.

To me, it also shows how different cars handle depending on their set up.
