

Western Nationals Video

Posted by capt squid - 19 Oct 2016 20:18

Thanks to Jerry, JP and Tim helping with installing an alternator before Q2.

Good hard racing and as usual the 944 group was great.

The below video is the first few laps of Q1 with John making a nice pass at the end. I didn't have time to set up the camera with the alternator problem before Q2. Bump drafting John on the start of the championship race shut off my camera so no video there.

Here is the video of the epic battle Charlie, John and I had on Saturday during the 2nd qualifying race. Lots of fun!
