

1984 944 - \$1600 (DFW Texas area)

My first post so let me explain. I am a spec miata racer and also a used Mazda dealer. I bought this 944 at auction sight unseen as it was advertised as a super low mileage 944S (I know). Anyway it turned out to be a 944 with 138k on it. It was brown but is now yellow with paint that looks like it was applied with a Wagner Power Painter (well maybe not that good). Interior is by duct tape except the back seats are actually nice. Does run/drive and shift well. Body is no rust Texas car and is straight. Wheels and tires are surprisingly excellent.

The car has been sitting for 6 months because I did not know what to do with it. I paid quite a bit more for this thing than I am asking but too bad for me. I do have to charge TT&L on it, but I will include this so its \$1600 "out-the-door";.

From all indications this will make a great spec racer or track car. A street car, not so much.
