

944 Spec Car Champion for Sale

Posted by 999Racer - 03 Jan 2012 16:46

1988 Porsche 944 Spec Race car. Built by Dwayne Diment of Vision Motorsports in Orange County at a cost of over \$40k (I have original build receipts). Previous Class Champion in the NASA series. I have owned the car for almost 3 years (I bought it from Vision) and have run it in the Porsche Owners Club Short Track Series in the GSR class. This car is fully sorted and needs nothing to be a class champion.

Brand new clutch with only a few hours of use. Includes 2 seats if you are doing DE. Includes spare set of wheels with brand new, never used tires, extra set of race brake pads, and a separate "quiet" exhaust system for tracks with noise limits such as Laguna Seca.

Selling because I do not have time to track the car right now - haven't tracked it for over a year. Bill of sale, not street legal. 310-592-3361.

Is the car available???? I will call you today.

Thanks,

Tom
