

## **Sunroof delete early 944 FS**

Posted by JHinMD - 04 Dec 2016 04:30

---

83, no sunroof, bad motor. My son blew the engine on his car. The extent its not known but compression on 1,2 and 3 is good....4 is low. All the parts are there. All stock. Non-lsd rear, sitting on fake fuchs. I toyed with keeping for a build but I have way too many projects now and it would be nice to see someone turn her into a race car. The interior is rough, but some parts could be sold off.

The car is in Maryland on the eastern shore.

Make me an offer over scrap
