

## Price reduced 1986 944Spec California \$500

Posted by cbuzzetti - 23 May 2018 11:02

---

Need to sell 1986 944Spec in Central Ca.

No engine

No trans

Newish Koni shocks

1 sets of wheels

6 point Hanksville cage

Welt Red bushings in caster mount

Delrin in front control arm mount

Camber plates, adjustable spring collars, 350 lb springs

Unknown black control arm bushings in rear but not stock rubber

Unknown torsion bars or torsion tube bushings

Interior is clean and freshly painted

New wheel bearings

Weltmeister sway bars front and rear

The Bad:

Body is rough and paint sucks

This car has been in major front end collisions and both horns in front of the cross member are bent. Car seems to scale fine and placed 3rd at East Coast Nationals a couple of years ago.

Window net, seat and belts are out of date.

**944-SPEC - 944SPEC - low cost wheel to wheel racing**

---

If you got a motor laying around this is a cheap way to go racing.

Trailer and seat not included in sale.

\$500 OBO must sell

Need room for another project. Make offers.

=====

**Make offers! it needs to go.**

---

Price reduced to \$3500. Or I can separate motor and trans and sell rolling chassis with wire harness for \$1000.

I will just keep engine and trans, radiator and oil cooler.
