Jeremy,

If you haven't already seen it, there's an autopower rollbar on craigslist.

[sfbay.craigslist.org/sfc/pts/838097372.html](https://www.craigslist.org/item/3/pts/838097372)

If you can talk him down a little on the price and buy the Autopower add on front hoop kit, you might save some \$\$.
