

Nationals Update

Posted by Sterling Doc - 30 Aug 2014 18:19

So imagine a 4 way tie for pole position in the championship race. Stanley, Walsh, Pina, and Barton all ended up with the same amount of points after the two qualifying races. The tie breaker of fast lap left them in the respective positions above. Neal Agran had an axle failure that resulted in a light brush with the wall. After missing the 1st qualifier, Agran went front last to 1st! Stanley set the fastest lap time today. Should be a good race! Stay tuned!

Nice Job Neal and Dan!

Great comeback. Should be a great race.

Good Job Dan for a 2nd place at Nationals!

Anyone have the story behind Neals race? Looks like he did not complete first lap.

Neal's Cinderella story ended early. Headed two rows of cars on the grass at the start, tucked back in to an outside lane for turn 1. Unfortunately, the pack moved outside, and Neal cracked an oil pan on the outside curbing. More details later.

Sorry to hear that. Neal had a good shot at the win.
