

In-Car Video from ACC (SAT)

Posted by dpRacing Dan - 25 Sep 2011 18:43

Hey Guys,

Here's a quick video of highlights from Saturdays race from inside the green machine.

Wow!!!!

That shows just how tight MW 944 Spec racing has become. You could throw a blanket over the top (and sometimes 5) through the whole race. Passing, repassing, no mistake left unpunished! Excellent wheel skills Dan - your corrections are really quick & decisive - cool to see in video. You were really driving the wheels off of that thing! Congrats on your win Sunday, in the rain.

It looks like Ray will be back, and gunning for you at Road America - game on, points wise.

I'll get my video up tomorrow.
