Would like to put together some deals. Jay Andrew is offering 20% for orders of 4 pads or more. We'll have no problem meeting the min., but I will have to buy these, and need a firm commitment. I will get final pricing ASAP, but I'm sure they will be more than competitive at this discount. Let me know what you need by the end of the month, sooner if possible. Most of us use Hawk Blues, with DTC 70/60 combo (F/R) being slightly nicer, but more money.

Also looking into a group buy on R-888's. Pricing depends on how many people, but should be a sig discount. Ray has an offer of around \$147 per tire that we can use. If Phil can get close, I'd like to Patronize him, as he does trackside support, but he is going to want a firm # as well. If we go with Phil I will ask that he stock our size of R-888 for us at MW events.

Finally, any interest in going to Mid-O April 10-12th with NASA Great Lakes? Would be a nice pre-season tune up, and the NOrth East & Canada 944 Spec Racers have been asking if we can help support their cause by showiing up to an event they can get to, making for a big splash. Besides, it's a great track we won't otherwise get to (all other Mid-O dates are only one week apart from MW events).
