Weltmiester Sway Bar parts Posted by JerryW - 03 May 2011 17:37
Hey guys - I managed to pick up a set of 28mm/22mm weltmiester adjustable swaybars but I need some parts.
First off the front bar was for a late car and I have an early car. Does anyone have the parts that mount on the control arm for an early car ?
Secondly I need the bushings for the rear 22mm bar.
If any can help I'd appreciate it.
