So who is going to Gateway ? we need to start firming this up. the price will depend on how many we have.

If your going you need to have an in car camera to get the great price. Ray (midwest 944-spec driver) can set you up with a system. Or weston or if you like low low cost you can get what I have . ray's is best weston's is second mine is third in quality.

Tell me more about the El Cheapo set-up please (camera and mount) I think I'm good to go, as long as I don't have to post bail \$\$ for any hockey players in Boise next weekend !! How many cars are you trailering Chuck ? I'm prepared to drive the car out but would appreciate tow help if that's a possibility. Thanks

Yeah, as I said in the Group thingy (which I can't check at work)... I'd love to go. But I need a new engine. I don't have the skills or tools to do that my self. And, the wallet is a little thin. May & Pueblo for sure. April & Gateway, not so sure.
