

Donor cars in Denver

Posted by JR944 - 28 Nov 2009 07:53

Hey Guys,

Joe Rothman here. I currently have (but can't afford to race) a 944S2 set up for PCA F class.

A friend of mine in Denver has a couple potential donor cars for sale. If there is somewhere else you think I should post, please let me know.

Both are '87's with over 160k.

Car #1 has a bad clutch and REALLY ugly paint. Starts and sounds ok running. \$800

Car #2 has passable red paint, new tires, runs and drives fine (I'm told... haven't driven it myself). \$1,800.

Contact Dave Imes 720-272-5917. Both cars are located at his shop in Lakewood.

Thanks,

Joe

Hi, Joe. Hope all's well. I've copied your post to the NASA RM 944 page, here:

www.nasarockymountain.com/nasa_forums/forumdisplay.php?f=33

Good luck with the sale!
