

2015 Season Video Depository

Posted by AgRacer - 25 Mar 2015 13:49

This thread is for all our documented shenanigans on track in 2015 that make it to YouTube, Vimeo, or whatever online video site you post your race videos to.

I'll start with my Sunday Lightning race from the Race to the Pi event at Road Atlanta.

I found a new feature in RaceRender that allows you to ghost your fastest lap of the session with your current lap on the track map in the video.

Spring Brake 2015 - Roebling Road Raceway

Saturdays Race - Qual'd P2 2 seconds behind Yousko. Managed to get the win after a full course caution bunched the field up, and then an incident in T2 forced Yousko off track during evasive maneuvers.

Sundays Race - Qual'd P2 again but this time only 3 tenths off. Yousko and I were setting equal lap times all race and ultimately, it came down to a little bit of traffic management. I got the track record but Yousko got the win! Our fast laps were only .05 seconds apart.

I'll be doing a write up for this week end for the next Speednews.
