944-SPEC - 944SPEC - low cost wheel to wheel racing Generated: 1 September, 2025, 13:12 Suggestions/thoughts for the event? Posted by Sterling Doc - 31 May 2015 17:42 First, does any know VIR, and the paddock here? I've never been there, so will need some input on this, or I can just do my best with the National office. Pizza party, night out? Any brainstorming welcome! Re: Suggestions/thoughts for the event? Posted by AgRacer - 02 Jun 2015 13:41 I was actually there last week end. It is in the stix and not really conveniently close to anything. There is a go kart track on the grounds along with a nice restaurant/bar that's been setup in the original plantation house.

The parking is expected to be a massive cluster judging by initial thoughts from the Mid-A guys. Supposedly they are going to put pre-grid on the remaining unpaved portion on the hill overlooking the north paddock (not in the dedicated covered pre-grid that apparently doesn't get used). The garages are available for a sizable fee and further parking details have yet to be released. They have done a good job painting pit spaces on the paved portion of the North Paddock so I imagine there will be a paid space section and free for all section like last year.
